SUMMARY

B.Tech CSE student (2027) skilled in Java/DSA and full-stack MERN development, with hands-on experience integrating Generative AI workflows. Focused on optimizing backend architecture, database persistence, and delivering clean software solutions.

TECHNICAL SKILLS

Languages: Java, JavaScript (ES6+), TypeScript, C++
Frameworks: React.js, Next.js, Node.js, Express.js, Tailwind CSS
Databases: MongoDB, PostgreSQL, MySQL, Prisma
Tools & Platforms: Git, GitHub, Postman, RESTful APIs, VS Code

EXPERIENCE

CloudCredits Technologies Pvt. Ltd. Jaipur, Rajasthan, India
Frontend Developer Intern Jun 2025 – Sep 2025

- **Developed responsive interfaces** using HTML5, CSS3, and JavaScript, ensuring cross-browser compatibility and full mobile responsiveness.
- **Integrated RESTful APIs** for seamless frontend-backend communication, boosting data retrieval efficiency by 25%.

TECHNICAL PROJECTS

StackMind – Full-Stack Conversational AI Platform | *GitHub*
MongoDB, Express.js, React.js, Node.js, Google Gemini 2.5 Flash API, RESTful APIs, Tailwind CSS

- **Architected a MERN AI platform** integrating Gemini 2.5 Flash API for async data streams and an optimized MongoDB thread architecture ensuring isolated session persistence at $O(1)$ query efficiency.
- **Engineered a React streaming engine** featuring a custom 40ms word-by-word animation loop, eliminating front-end rendering bottlenecks during complex state updates.

ResQ-AI: Disaster Intelligence & Response Platform | *GitHub* *Hackathon*
Next.js, Node.js, Prisma, PostgreSQL, WebSockets, Google Teachable Machine | **Role: Team Lead & AI/ML**

- **Spearheaded a hackathon team** to build a full-stack disaster platform, integrating WebSockets for real-time tracking across operational live dashboards.
- **Deployed computer vision models** trained via Google Teachable Machine into the production web app for automated, live-streamed scene analysis and decision support.

WanderLust – Hotel Listing Platform | *GitHub*
MongoDB, Express.js, Node.js, EJS, JWT

- **Architected a full-stack web app** with role-based JWT authentication and robust RESTful APIs to manage complex property and user authorization workflows.
- **Engineered an EJS responsive UI** featuring image uploads and a review system built with strict server-side data validation protocols to ensure database integrity.

EDUCATION

Jagannath University, Jaipur Jaipur, Rajasthan, India
Bachelor of Technology, Computer Science and Engineering 2023 – 2027
Coursework: Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems
Academic Performance: SGPA (Semester V): 7.23/10

ACHIEVEMENTS & CERTIFICATIONS

- **2x Smart India Hackathon (SIH) Internal Round Winner:** Led cross-functional teams to prototype innovative solutions addressing real-world challenges.
- **MERN Stack Web Development Certification:** Comprehensive full-stack training in MongoDB, Express.js, React.js, and Node.js.
- **Google 5-Day AI Agents Intensive:** Completed training in AI agents, prompt engineering, and agentic workflows.
